

Peter Vidmar Audio/Video Requirements

Microphone

- Hand held (not lavalier), preferably cordless
- Peter does not need a lectern or podium

Staging

- A 10'X10X (minimum preferred) area, raised platform for the pommel horse (standard hotel risers are fine).
- Peter will arrange for the delivery of the pommel horse. Please let him know who is the on-site contact and how to reach him/her.

Ceiling Height

- Because Peter's performance involves skills that take him up to a handstand on the pommel horse, a 12 foot minimum is preferred, but not critical (he can make adjustments in the performance, if necessary)

Video (optional)

- Peter has a 1 ½ minute narrated video introduction of his performances in the Olympics. The video is available in DVD format.

Recording

- Recording is not permitted without advanced written authorization from the speaker. **If you plan to video or audio record any portion of Peter's program, please contact our office to request a Recording Agreement.** Depending on the intended usage, an additional licensing fee may apply.
